

RAMP UP! YOUR COMMUTE IS ABOUT TO CHANGE A BIT

On **June 10th**, prepare for some changes in **how** you get to the Courthouse complex and **where** you park.

This **State of Ohio** project is expected to last for the next **two years**.

- The **exit ramp (100A - US 23 S. / Front St. / High St.)** from I-70 eastbound to Front St. will **close**.
- The **Front St. Bridge** over I-70 will **close**.
- **Fulton St.** between Front and Short Streets will **close**.
- **Fulton St.** west of High St. will be two-way to allow access to the building loading dock but **dead-end at Front St.**
- **Front St.** will be **two-way** to allow access to the garage.

Any **changes to the timeline of this project** or access to certain areas of the complex **are due to the Ohio Department of Transportation's Downtown Ramp Up project**. We encourage employees to consider **downloading the OHGO App** for updated detours & project information.
